

TIME & ATTENDANCE

Our time and attendance software simplifies time tracking so you can reduce payroll costs, process payroll faster and eliminate errors. Track and manage punches, time cards, time-off requests and accruals.

Timekeeping

Automatically tracks time for on-site and at home employees, making it easy to review timecards.

PTO Management

Allows employees to view their time-off balance in real time and make requests for their managers approval.

Geofencing

Makes it easy to see who showed up at the right place and when. Unlimited geofences allows you to track every location.

Flexible Configuration

Customized pay rules, overtime calculations, compliance requirements and accrual application. Wide range of physical and online clock options.

Fewer Errors

Intelligent clock technology helps eliminate duplicate or missed punches and errors computing total hours and pay.

Mobile Access

Administrators and employees have convenient access to mobile punch clocks and administration tools from any mobile device.
